**Program Rationale:** (Why is this program important?)

Unleashed is a student-run program that focuses on developing a positive school culture. The program was initially designed and rolled out at East Ridge High School by students and then Assistant Principal, Jacob Stein. Mr. Stein, now Principal at Tavares, along with myself and many other teachers and students have attended the program at East Ridge. The impact that Unleashed will have on students will allow us to change the culture on our campus. Unleashed will bring students together by helping them form positive, healthy relationships, and reduce bullying. This program is extremely valuable and we're looking forward to continuing it for years to come. To understand the impact of this program, I'd like to invite you to view a short video the student leaders put together. This video gives a slight glimpse into the daily struggles high school students face, often feeling alone in their trials and tribulations. The main purpose of this video is to show students they're not alone and open the doors for discussion. You can view the video here:

**Program Impact:** (How will the teachers and students benefit from this project?)

Students and teachers alike who attend Unleashed will be brought together to form relationships that make everyone feel important, valued, and worthy. The overall impact of this program is designed to reduce behaviors and inappropriate interactions that cause disruption on our campus. It's expected that as a result of Unleashed, discipline referrals will decrease and overall culture climate change.

**Program Evaluation Method:** (How will you measure teacher and student success?)

After each session, which will run three times every school year, students and teacher will complete surveys that discuss the effectiveness and impact of the program. Additionally, discipline data will show that this program is effective and highly needed.

**Program Timeline:** (provide a project start date and completion date)

This program will run three times per school year, however, for this current year, we'll run two. Our first session is set to run November 7<sup>th</sup>, and our last session will be in February. Moving forward, sessions will be held at the beginning of the school year as well.
