

**Education Foundation of Lake County, Inc**  
**2018-19 CTE Grant Application**  
**Deadline to Apply: August 31, 2018**

**Basic Project Information**

Principal Name:	Dr. Rhonda Boone
School Name:	Mount Dora High School
Teacher Name(s):	Billye Kozlowski
CTE Program Name:	Digital Design
Grade levels:	9-12
Number of Students:	121
Number of Participating Teachers:	1
<b>Amount Requested:</b>	\$2500

**Would you consider this a multi-year project?** *(are funds to be used this year that support future efforts and greater impacts to students in subsequent years) If so, please outline multiyear goals and expected measurable metrics.*

This grant would provide 31 graphic design tablets for the graphic design lab and would be available for all students in the program. This is a multi-year (appx. 5 years) project that will affect students for several years, affecting approximately 600 students. Measurable metrics will be the Industry Certification results/passage rate each year. Competencies will be measured with mini assessments and the final outcome goal is 70% passage on the Adobe Industry Certification exam.

**Project Abstract** *(Describe in 200 words or less your project proposal and outcomes to be measured. Think of this as your elevator speech, what would I say about this project and its potential impact?)*

The potential impact of this project is that 121 students will be better equipped to pass the Adobe Industry Certification exam and receive an Acceleration credit for the class. The USB graphics tablet (a hardware input device used by digital artists) will give students the opportunity to gain hands on experience with a valuable tool used in the design industry. The use of this tool is a REQUIRED benchmark and objective of the program and is a required skill in the graphic design industry.

**Project Detail**

In the space below, please provide a detailed outline of your project activities. Please be sure to include the following: Goals and objectives of your project activities, expected timeline for project activities, when certification exams will be taken, etc.

Goals and Objective of project activities:

**Goal:** To teach students the use of a graphic tablet to advance their skills and enhance their practical experiences in computer generated arts and text, graphic design, graphic production, digital design skills and preparation of digital layouts and illustrations to keep pace with the latest digital design technologies and industry practices preparing them for a career and trade.

The goal is to also increase their competencies in preparation for success on the Industry Certification exams.
