Email Address: caldwells@lake.k12.fl.us	

Detailed Project Information
Project Title: Engaging Students with Technology
What priority area(s) will your project address: Student Engagement with Updated Technology
What is your estimated start date: October 2019
Estimated number of teachers who will participate in this project: 40
Estimated Number of Total Students Impacted by project: 630
Grade Levels to be Addressed: PreK-5th

<p>Program Background: Umatilla Elementary School would like to purchase a more cost effective and up to date interactive projection display for each classroom. We are a Title 1 School with 67.39% of the population having free and reduced status. This year all of our students receive free lunch. School enrollment is 630 students and has 38 classrooms. Currently, we have 4 Interactive Smartboards. These Smartboards are at least 13 years old or older. Due to the Smartboards becoming obsolete, our district Technology Support is not renewing the software or installing the programs. Every classroom is equipped with a Dell or Epson projector. Replacement bulbs are \$99.00 per projector. The cost for the projector is \$327.00. Most of the projectors only have a two-year warranty. Teachers use the projector display on a daily basis.</p>
<p>Project Summary: These interactive displays would help all of our students be more successful in the "real world" classroom and expand the learning environment beyond the classroom. This technology connects all subject area skills and standards to student learning. It will utilize technology through STEM as well as digital learning. Teachers can utilize opportunities to differentiate instruction and enhance student creativity, which ultimately impacts all of our learners.</p>
<p>Need: \$3,000.00 per classroom to purchase a Viewsonic interactive television projector with a touch screen. The Lake County Schools AV Department provided pricing and specifications. Other Lake County elementary</p>
