## What is TSIC?

Take Stock in Children is a statewide Florida scholarship program. Students who qualify are those who are financially at risk of attending college. The students are identified in 9th grade from low income families and must be enrolled at a public school in Lake or Sumter Counties. Additionally the students should have a 2.5 GPA or better with no attendance or behavioral issues.

What sets this program apart from others is the fact that as well as providing two years' tuition to a state college, the students are mentored throughout their high school years all the way to their 12th grade graduation.

To conclude, our mission is to passionately promote personal growth, responsibility, and academic success for deserving low-income children. This is achieved by providing a unique set of resources including mentors, scholarships, student advocacy, and a guaranteed educational opportunity.
