Program Rationale: (Why is this program important?)
 Beverly Shores Elementary serves a population of students that could benefit from cultural musical experiences, particularly percussive and kinetic. The music classroom lacks equipment that might serve to motivate the students. These drums are impressive to see, play, and hear. The lessons will include music reading experiences that are directly tied to mathematics.

Program Impact: (How will the teachers and students benefit from this project?)
 Students will work in pairs, implementing the drumming lessons. They will develop a proficiency, allowing them to perform for the school and community. Teachers will benefit from working together on a common project.

Program Evaluation Method: (How will you measure teacher and student success?)
 The success of the program will be measured by the number of performances in which the various drumming groups will participate. Performer and audience enjoyment will be evidenced on video.

Program Timeline: (provide a project start date and completion date)
 The program will be implemented upon funding and be on-going, even though the evaluation for the purpose of this grant, will be completed on time.
