Requester:	Mr. Ryan Wright & Ms. Erin Scully
Project Title:	Music Department Furniture Upgrade
School Name:	South Lake High School
Academic Subject:	Choral & Instrumental Music
Grade(s):	9, 10, 11, & 12
Number of Students:	208
Number of Participating Teachers:	2
Amount Requested:	\$23,812.00
Project Need: (Please describe the demographics of your school and why this project is needed)	
<p>Our school is at 54.51% Free or Reduced Lunch eligibility. Our Race/Ethnic breakdown is as follows: 47.89% White/Caucasian, 30.11% Hispanic, 12.99% Black, 3.92% Asian, and 5.09% Other or Multi-racial. We have 21 to 1 Student to Teacher Ratio, and our school is 50.59% Male and 49.41% Female. We are in need of aid to help fund some basic classroom essentials as there is no funding supplied to replace these items as they depreciate and wear. Our school is the last high school built or rebuilt, so the assets in the facilities are aged 27 years, from the time the school opened. Furniture/equipment to perform basic daily functions is necessary to aid in classroom instruction free from distraction of broken equipment or injury due to aging and improper chairs and stands. The chair we currently have were not designed for music instruction classrooms, and are extremely heavy. They also do not stack or transport efficiently and all performance functions of our department put a strain on logistics and safety. The addition of this necessity would bring our department into the 1990's and beyond, as this is something that should already be in place in a minimally outfitted music department.</p>	

Please provide a detailed budget of how funding will be expended for this project. Please include specific list and price quote for each item requested. Can be attached as a separate sheet.

Project Summary: (In one or two sentences, please summarize your project)

We are in need of new stackable chairs suitable for musician posture. We are also in need of lighter, safer music stands, and storage and transporting solutions.

Project Detail: (Please provide your project detail)

Our current chairs are not efficiently stackable, and are extremely heavy and difficult to transport, as we have to move chairs on a regular basis. Our current music stands are very heavy as well, and are composed of metal, which has sharp edges, and they are plagued with rust, posing a danger for the students. We also need carts to transport and store our equipment, as we have a daily need to move and store our chairs and stands on carts.

Project Impact: (How will the teachers and students benefit from this project?)

The addition of these resources will improve the logistics of setting up for performance-based events on-campus and in our local community immensely. It also, and more importantly, keep our students safer from injury, as these solutions help safely transport and store our equipment.

Project Evaluation Method: (How will you measure teacher and student success?)

Observational Data and Anecdotal Evidence will determine if safety and logistics improve via the purchase of new equipment and methods of storage and transport.

Project Timeline: (provide a project start date and completion date)

Start date is January 1st, 2020, and completion date is June 30th, 2020.
